My dear Mr. Dulles:

A source who has furnished reliable information in the past obtained the following information from a representative of the Communist Party, USA, who recently returned from a surreptitious mission to the People's Republic of China. The mission was made in response to a specific request of the Chinese.

Officials of the Central Committee of the Communist Party of China (CPC) related they consider that President John F. Kennedy's actions are leading to war and that "President Kennedy is ten times worse than former President Dwight D. Eisenhower." The Chinese believe that Soviet Premier Nikita Khrushchev is "so eager" for negotiations with the United States that he will give all kinds of concessions on the Berlin situation. Possible concessions by Khrushchev constitute one of the greatest fears of the officials of the Central Committee of the CPC as they propose there is only one way to deal with the United States, and that is to "fight."

This communication has been classified "Top Secret" due to the sensitive nature of our source. This information is being furnished to other appropriate officials of the Government.

Sincerely yours,

J. Edgar Hoover
